

# SURVIVAL ISLAND

HAVE YOU GOT WHAT IT TAKES?

Learn the ultimate skills of survival as you take on a series of tasks designed to keep you safe and alive in the great outdoors.

After an inspiring opening presentation based on a real life or death survival story, teams are equipped with basic materials and equipment.

They are then faced with a series of real life survival scenarios, in which groups learn key skills before they take on the task ahead.

Each survival task is designed to involve every team member. Using what nature has to offer, teams must draw upon resourcefulness and ingenuity, whilst applying the core skills of teamwork.

Teams have the option of dining outdoors with real military ration packs.
